

CONTACT-WATER CONTROL SYSTEM

INSPIRED BY NATURE // DRIVEN BY THE ELEMENTS // FLYOZONE.COM    OZONEKITES

THE CONTACT-WATER CONTROL SYSTEM OFFERS THE LATEST IN RELEASE FEATURES, A CLEAN CONTROL BAR DESIGN AND A SIMPLE EASY-TO-USE TRIMMING SYSTEM.

PUSH AWAY QUICK RELEASE

The control system features our Megatron push-away quick release with total flag out of the kite. The release handle is ergonomic with positive release forces for quick and easy release. Simple re-assembly saves time and gets you back up and riding faster.

ANTI-TWIST FLAG OUT LINE AND SPINNING HANDLE

The flag out line running through the Megatron & kite leash attachment at the bottom keeps the leash tangle free when doing rotations and manually unwinding the centre lines using the Spinning Handle.

AUTO POSITIONING CHICKEN LOOP

Designed in conjunction with the bar centre piece, the Megatron spinning handle auto positions the chicken loop when unhooking.

STAINLESS STEEL LEADER LINE PIN

Superior strength is achieved with a Stainless pin running through the bar. This creates an ultra strong and direct connection between the control bar to flying lines.

CONTACT-WATER CONTROL SYSTEM BAR SIZES

Bar sizes come in 45cm, 50cm and 55cm. The larger size PU chicken loop (sold separately) is perfect for riders with longer arms or requiring even easier hooking in & out.

CONTACT-WATER CONTROL SYSTEM

PU COVERED DE-POWER LINE

The tough PU covered de-power line significantly reduces wear when sheeting in and out.

LOW FRICTION CENTRE PIECE

The control bar features a low friction centre piece designed to reduce trim line wear.

EVA GRIP

Lightly sanded with ergonomic finger bumps providing the ultimate bar grip.

• **AUTO POSITIONING CHICKEN LOOP**
Designed in conjunction with the bar centre piece, the Megatron spinning handle auto positions the chicken loop when unhooking.

• **MANUAL SPINNING HANDLE**
Ensures you can always keep your central power lines twist free

• **ALL HIGH QUALITY STAINLESS STEEL HARDWARE**

• **TWO RELEASE MODES –**
The Megatron offers riders a choice of two release modes, the recommended Standard or the optional Expert mode.

• **STANDARD MODE**
offers 100% flag out in all situations by releasing the Megatron or letting go of the bar when un-hooked.

• **EXPERT MODE**
offers 100% flag out only when the Megatron is released whilst hooked in, allowing riders practicing handle passes to let go of the bar without releasing the kite to flag out (not recommended).

SOFT BAR ENDS WITH HIDE-AWAY ELASTIC LINE RETAINERS

Soft bar ends for comfort and are less likely to damage lightly constructed boards.
Hide-away elastic line retainers keep wound lines secured.

RE-LAUNCH BALLS

Fixed to the leader lines to pull when re-launching the kite.

BUNGEE TRIM LINE & MAGNETIC HANDLE

The internal bungee with magnetic handle connects to a magnetic neoprene sock covering the clam cleat to reduce tangles when the trimmer is de-powered.

STAINLESS STEEL TRIMMER BRACKET

The smooth running trimmer bracket also prevents trim line wear.
