PERFORMANCE FREERIDE

OZONE[®]

CODE^{V3}

DESIGN:

OZONE[®]

The Code V3 fits an impressive range of rider levels and styles, free ride, cruising, big air and unhooked freestyle. Equally at home in flat water, chop and waves, it's a high performing all rounder that comes alive the second it hits the water.

New Hybrid Biax Fiberglass and UD Carbon Layup

The third version of the Code features a new hybrid Biax Fiberglass and UD Carbon layup. This new construction reduces weight by 10%, increases flex at the tips and increases response from the center of the board. Combining a medium flex and rocker the Code V3 absorbs and controls fast landings, making engaged big air and kitemoops forgiving on touch down.

Medium Flex and Rocker

Combining a medium flex and rocker the Code V3 absorbs and controls fast landings, making engaged big air and kitemanoeuvres forgiving on touch down.

Updated Hull

The hull design has been updated with a double concave blending into tri-spine channels at the tips. This provides incredible grip to confidently ride with speed and power for big boosts or driving hard upwind.

CODE¹³

DESIGN:

ALL ROUND FREERIDE PERFORMANCE
MEDIUM ROCKER AND MEDIUM FLEX
HYBRID FIBERGLASS AND CARBON LAYUP
PROGRESSIVE OUTLINE WITH AMAZING CONTROL
INTERMEDIATE TO ADVANCED FREE RIDERS

Carving Performance and Direct Drive

The Freeride round-style outline provides excellent carving performance and direct drive that is ultra smooth in choppy conditions. Swallow shaped tips allow a strong edge hold without the feeling of being locked on a rail, while increasing stability and control.

More Engaging and Easier to Progress

The aim of the Code is to make riding more engaging and easier to progress. We love to see people enjoying themselves on the water, take the Code V3 and explore the endless possibilities this board has to offer!

Range of Use:

Suggested Size & Rider Weight Range:

SIZE	WEIGHT
129 X 38 CM	40-60KG
132 X 39 CM	45-65KG
135 X 40 CM	50-70KG
138 X 41 CM	65-85KG
141 X 42 CM	80-100KG
144 X 43 CM	95KG+

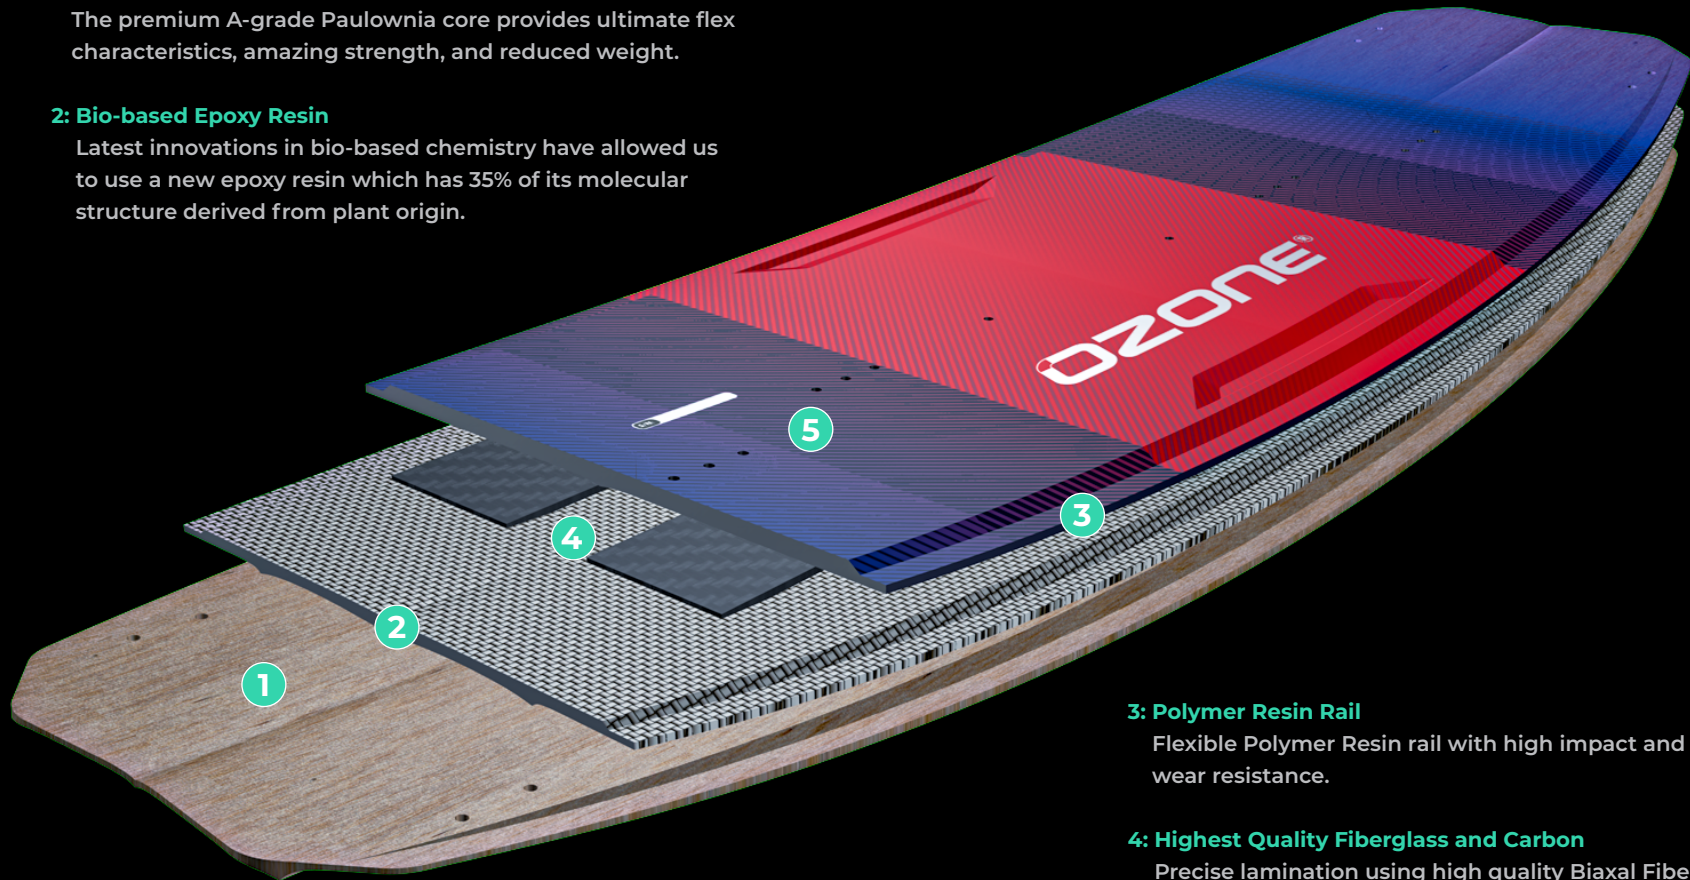

Construction

1: Premium A-grade Paulownia core

The premium A-grade Paulownia core provides ultimate flex characteristics, amazing strength, and reduced weight.

2: Bio-based Epoxy Resin

Latest innovations in bio-based chemistry have allowed us to use a new epoxy resin which has 35% of its molecular structure derived from plant origin.

3: Polymer Resin Rail

Flexible Polymer Resin rail with high impact and wear resistance.

4: Highest Quality Fiberglass and Carbon

Precise lamination using high quality Biaxal Fiberglass and UD Carbon layers to provide the ultimate balance of flex, response and strength.

5: Highest quality 316 Stainless Steel inserts

Highest quality 316 Stainless Steel inserts embedded into ABS blocks. This insert construction offers superior strength for powered riding and using boots.

Footpads and Straps V2

Having comfortable footpads and straps can be the difference between a good session and a bad one. Our V2 design provides the ultimate balance between performance and comfort to keep the good sessions rolling!

Our foot straps are ergonomically designed featuring **Ultralon Performance Foam®** and **plush neoprene** for the ultimate in comfort and control while providing a precise fit. Ultralon foam has an exceptional resistance to packing out, it doesn't compress over time and has an outstanding formability enabling anatomical adaptation. Combined with the **quick and easy velcro size adjustment**, the strap provides a snug fit to all foot shapes and sizes or wetsuit booties.

We have designed our footpads to provide superior comfort, adaptability and strength. The multi-density foam pads combine a **shock absorption base layer** and a **higher density top layer** with **precise contouring and texture** for increased traction to keep your feet comfortably locked in. The baseplate is built strong with **nine strap positions** and **five stance angle options** allowing for uncompromised adaptability.

Ultralon Performance Foam® and plush neoprene

Quick and easy velcro size adjustment

baseplate with 9 strap positions and 5 stance angle options

EVA top layer with precise contouring and texture

EVA Shock absorption base layer

Toe ridge provides extra grip

FEATURES:

OZONE[®]

Fins V2

Two fin designs offer the choice for solid edge hold or increased freedom. Choose the 45mm size for maximum grip while edging and taking off to boost. The 35mm size is perfect for freestyle riders using boots and for those looking for increased freedom while carving. Our V2 fins are precisely injection molded using advanced glass-filled nylon materials for high strength and wear resistance.
