OZONE[®]

Catalyst^{v3}

DESIGN:

ozone[®]

Open Arc Shape

The Catalyst V3 is ultra stable and intuitive to launch, land and fly. The lightweight one strut design combined with an open arc shape delivers smooth power with amazing light wind capabilities getting you up riding easily.

The Catalyst V3 is the kite for anyone getting into the sport or riders looking for a fun, confidence inspiring kite with ease of use at its heart. It is derived from the very popular Alpha V1 design with refinements to enhance durability, performance and accessibility for entry level to intermediate riders.

Ultra Stable and Intuitive

The wide wind range and progressive de-power makes riding in variable or gusty conditions comfortable, while great upwind performance gives you more time to spend improving your skills!

After the basics have been mastered and you're looking to expand your game, you'll be surprised at the jumping capabilities of the Catalyst V3. Smooth lift with precise feedback makes learning your first jumps easy.

Range of Use:

Wind Range:

Wind range is indicative only based on an average rider weight of 80kg. Actual range will vary based on rider skill level and type of board used.

- Fun, easy and intuitive
- Simple and fast re-launch
- Large wind range
- The kite of choice for entry level to intermediate riders

Catalyst^{v3}

FEATURES:

ozone[®]

Easy Re-Launch

Water re-launch is simple, by turning the bar or using the re-launch balls on the leader lines the kite rolls over into the re-launch position. Our time proven Front Line Flag Out release system is simple and effective, it is the same system featured on our entire water kite range. When the Click-in Loop is released the kite flags out to one front line, immediately releasing all the power from the kite.

Catalyst^{v3}

FEATURES:

All New Ripstop Material Combination

The Catalyst V3 features our new rip-stop material combination. The new rip-stop canopy material has an advanced ultra flex coating improving feedback in gustier conditions making for a smoother ride. The new technical rip-stop dacron is super tough, used on the Leading Edge and Struts it improves strength, durability and longevity

ozone[®]

All new One Pump

An all new High volume One-Pump Valve system with almost twice the airflow capacity gets you out on the water faster and makes packing down easy.

A huge smile factor comes standard on the Catalyst V3 - it's a fun and easy kite to ride that will make your progression in the sport fast, safe and enjoyable.
