SUGGESTED SIZE & RIDER WEIGHT RANGE

SIZE	WEIGHT
144 X 47 CM	65KG +

Size and weight range is indicative only based on normal riding conditions.
Actual range will vary based on rider preference, skill level and strength of wind.

**THE INFINITY V1
IS A DEDICATED
LIGHTWIND BOARD
THAT MAKES RIDING
MORE EXCITING
AND PROGRESSIVE.
IT UNIQUELY BLENDS A
CLASSIC TWIN-TIP FREERIDE
FEELING WITH IMPRESSIVE
LIGHT WIND PERFORMANCE.**

Alive with speed and maneuverability, the Infinity redefines what we think of as a light wind board. It is livelier, lighter and smaller than other light wind specific boards on the market - the Infinity motivates progression! It has range too; as the wind increases the Infinity remains smooth and controllable to ride thanks to its unique hybrid freeride-light wind outline.

Designed with a double concave bottom shape going flat towards channeled tips and optimized rocker line. This combination provides early planning, continuous board speed through lulls and impressive upwind performance. The Infinity rides high on the water for comfort in chop and ease of rolling into a turn.

Off centered inserts relieve stress on ankles while edging to ride upwind, this also allows for an easy load and pop in light breezes. The Infinity's cohesive flex pattern provides control when loading up for bigger airs and the progressive flex towards the tips helps absorb landings smoothly.

Ideally suited for twin-tip riders who want simply to cruise, freeriders searching for high end light wind performance, all the way to freestyle addicts aspiring to throw unhooked tricks in a breeze. Don't find yourself sitting in desperation on the beach, take the Infinity and tear it up!

INFINITY_{v1} FEATURES

EXCEPTIONAL OZONE FACTORY CONSTRUCTION

World-class construction in our own factory, using the highest quality materials and hand checked Quality Control at every step. The Ozone factory also manufactures our Kites, Paragliders and Speed Wings; the same Quality Control processes are used across all products.

DOUBLE CONCAVE & TIP CHANNELS

Designed with a double concave bottom shape going flat towards channeled tips and optimized rocker line. This combination provides early planning, continuous board speed through lulls and impressive upwind performance.

OFF CENTERED INSERTS

Off centered inserts relieve stress on ankles when edging to ride upwind, this also allows for an easy load and pop in light breezes.

HIGHEST QUALITY FIBERGLASS

Precise lamination using high quality Biaxial and UD fiberglass layers to provide the ultimate balance of flex, response and strength.

A-GRADE 316 STAINLESS STEEL INSERTS

Highest quality 316 Stainless Steel inserts embedded into high strength polymer blocks. This insert construction offers superior strength for powered riding and using boots.

HYBRID FREERIDE-LIGHT WIND OUTLINE

Alive with speed and manoeuvrability, the Infinity V1 redefines what we think of as a light wind board, it's not dull and oversized like some others on the market - the Infinity motivates progression! It has range too; as the wind increases the Infinity remains smooth to ride thanks to its unique hybrid freeride-light wind outline.

COHESIVE FLEX PATTERNS

The Infinity's cohesive flex pattern provides control when loading up for bigger airs and the progressive flex towards the tips helps absorb landings smoothly.

A-GRADE PAULOWNIA CORE

The premium A-grade Paulownia core provides ultimate flex characteristics, amazing strength, and reduced weight.

GRAB RECESS

Grab Recesses on both rails if riding without a handle.

FOOTPADS AND STRAPS V2

Having comfortable footpads and straps makes the difference between a good session and a bad one. Our V2 design provides the ultimate balance between performance and comfort to keep the good sessions rolling!

FOOTPADS AND STRAPS_{v2}

HAVING COMFORTABLE FOOTPADS AND STRAPS MAKES THE DIFFERENCE BETWEEN A GOOD SESSION AND A BAD ONE. OUR V2 DESIGN PROVIDES THE ULTIMATE BALANCE BETWEEN PERFORMANCE AND COMFORT TO KEEP THE GOOD SESSIONS ROLLING!

Our foot straps are ergonomically designed featuring Ultralon Performance Foam® and plush neoprene for the ultimate in comfort and control while providing a precise fit. Ultralon foam has an exceptional resistance to packing out, it doesn't compress over time and has an outstanding formability enabling anatomical adaptation. Combined with the quick and easy velcro size adjustment, the strap provides a snug fit to all foot shapes and sizes or wetsuit booties.

We have designed our footpads to provide superior comfort, adaptability and strength. The multi-density foam pads combine a shock absorption base layer and a higher density top layer with precise contouring and texture for increased traction to keep your feet comfortably locked in. The baseplate is built strong with nine strap positions and five stance angle options allowing for uncompromised adaptability.

FINS_{v2}

TWO FIN DESIGNS OFFER THE CHOICE FOR SOLID EDGE HOLD OR INCREASED FREEDOM.

Choose the 45mm size for maximum grip while edging and taking off to boost. The 35mm size is perfect for freestyle riders using boots and for those looking for increased freedom while carving.

Our V2 fins are precisely injection molded using advanced glass-filled nylon materials for high strength and wear resistance.

BOARD HANDLE_{v2}

STRONG AND DURABLE WITH A TEXTURED UNDERSIDE GRIP FOR MAXIMUM CONTROL DURING WATER STARTS TO BOARD OFFS.
