## Easy Upwind Riding

The **moderate to low rocker** line facilitates early planing and makes **upwind riding easy**. The Base offers an ultra smooth ride thanks to the forgiving **medium-soft flex** pattern keeping you comfortable even in choppy conditions.

## Polymer Resin Rail

Flexible Polymer Resin rail with **high impact and wear resistance.**

## Highest Quality Fiberglass

Precise lamination using high quality **Biaxal and UD Fiberglass** layers to provide the ultimate balance of flex, response and strength.

BASE<sup>1/2</sup>

# Easy to Improve

With the Base you will have more time to spend concentrating on improving your skills, allowing you to quickly master your first **turns, carves and jumps!**

## Suggested Size and Rider Weight Range

128 X 38 CM	40-60 KG
130 X 39 CM	45-65 KG
133 X 40 CM	50-70 KG
137 X 41 CM	65-85 KG
142 X 42 CM	80-100 KG
148 X 44 CM	95 KG+

## Range of Use:

# Footpads and Straps V2

Having comfortable footpads and straps can be the difference between a good session and a bad one. Our V2 design provides the ultimate balance between performance and comfort to keep the good sessions rolling!

Our foot straps are ergonomically designed featuring **Ultralon Performance Foam®** and plush neoprene for the ultimate in comfort and control while providing a precise fit. Ultralon foam has an exceptional resistance to packing out, it doesn't compress over time and has an outstanding formability enabling anatomical adaptation. Combined with the **quick and easy velcro size adjustment**, the strap provides a snug fit to all foot shapes and sizes or wetsuit booties.

We have designed our footpads to provide superior comfort, adaptability and strength. The multi-density foam pads combine a **shock absorption base layer** and a **higher density top layer** with **precise contouring and texture** for increased traction to keep your feet comfortably locked in. The baseplate is built strong with nine strap

## Fins V2

**Two fin designs offer the choice for solid edge hold or increased freedom.** Choose the 45mm size for maximum grip while edging and taking off to boost. The 35mm size is perfect for freestyle riders using boots and for those looking for increased freedom while carving. Our V2 fins are precisely injection molded using advanced glass-filled nylon materials for high strength and wear resistance.

BASE<sup>1/2</sup>

# Board Handle

Strong and durable with a textured underside grip for maximum control during **water starts to board offs**.
